DETAILED ACTION

Response to Amendment

1. The indicated allowability of claims 42 and 44 is withdrawn in view of the newly discovered reference(s) to Belz et al (US Patent 6,980,552 B1). Rejections based on the newly cited reference(s) follow. The finality of the last action is also withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 42 and 44 are rejected under 35 U.S.C. 102(b) as being anticipated by Belz et al (US Patent 6,980,552 B1).

Regarding to claim 42, Belz discloses an integrated circuit 200 having an output port (the arrow leaving transmit FIFO 260), comprising a memory manager 1800 that stores chunks of information into buffers in a payload memory 255 (fig. 18 col. 37 lines 40-49), all the buffers being of equal size (col. 30 lines 20-28), some of the chunks including cell information, others of the chunks including packet information (col. 7 lines 14-37); and reassembly means 1810 for receiving said chunks from the memory manager 1800 and for performing one reassembly process per active output port such that substantially no more than one reassembly context is maintained for each active output port (fig. 19 col. 37 lines 45-61), wherein the memory manager 1800 stores said chunks in the payload memory in per flow queues, and wherein the reassembly means

Art Unit: 2616

stores said chunks in per port queues (col. 37 lines 58-61; noted there is only one output port per card 200).

Regarding to claim 44, Belz discloses the reassembly means 1810 processes the information with various assembly operations based on the header (type of information), col. 37 lines 40-42.

Allowable Subject Matter

4. Claims 20-22, 34-40, 43, and 45 are allowed.
